>> Main advantages

- ✓ Our harnesses have a dual colour scheme allowing quick and easy identification of the straps for the shoulders and the thighs. It makes it easier to wear the harness properly.
- ✓ The yarn used in the seams are in contrasting colours, making it easier to control the harness.
- ✓ Our harness has a unique sit strap ergonomically designed for extended comfort.
- ✓ The sit strap & the thigh strap are designed so that they are made out of a single piece of webbing to give better load distribution between the thigh & sit straps
- ✓ The webbing used in manufacturing harness is made of Dope Dyed High Tenacity Polyester Yarn which has six times higher resistance to UV colour degradation over the normal dyed webbing.
This procedure provides a unique resistance against UV degradation, 6 times superior than straps classically tinged. This method provides a greater longevity of the final product.
- ✓ **ISO 9001** certified manufacturing.

>> Conformity

This product has been tested according to the following European standard:
- **EN 361: 2002.** Personal Protective Equipment against falls from a height; full body harnesses.
It complies with European **Regulation (EU) 2016/425** on Personal Protective Equipment (PPE). **Category III.**
